# The Back Story

In July 2022 myself and my partner visited Boston in America, this was the first time we were introduced to “Almond Toffee”. It was very different to the English toffee we were used to, at first bite we both fell in love with it, it had the creamy buttery taste of toffee with a unique cookie like crunch, and in comparison, to English toffee wasn’t too chewy and didn’t stick to your teeth, nor was it too hard and difficult to break. It was the perfect combination of taste and texture. Since getting back we have not been able to find anything like it in the UK, so we have spent until now researching and perfecting the recipe and cooking techniques.

# Sophisticated Flavours

Milk Chocolate & Toasted Almond

Dark Chocolate & Malden Sea Salt

White Chocolate & Raspberry

# Unlimited Seasonal Flavouring Options

Seasonal & special flavours to attract more repeat purchases

With our toffee there is so much we can adjust to introduce new flavours. We can adjust the nuts we lace and top the toffee with, we can coat the toffee with white, dark, milk and flavoured chocolates, and finally endless combinations of sweet and Savory toppings.

It's the Pizza of the toffee world - the options are endless; the only limitation is imagination.
